# PhD Researcher in Machine Learning

Leuven, Belgium
Tel: +32 467 72 88 80
kgoyal40@gmail.com

## **Experience**

#### PhD Researcher @ DTAI lab, KU Leuven

Oct' 2018- present

Topic: Machine Learning for Verifiable Artificial Intelligence; Advisor: Prof. Hendrik Blockeel

- Learning Models that Provably Satisfy Domain Constraints
  - Developed a new framework and an optimisation approach to learn models that can **certify domain constraints** (e.g., safety constraints, fairness constraints) for **all possible predictions**.
  - Proposed a constraint propagation technique to propagate domain constraints through a neural network.
  - Proposed multiple **novel evaluation metrics** to accurately measure constraint satisfaction of the learned models.
- Automatic Playlist Generation for a Music Streaming Service
  - Developed an approach to **automatically identify** dynamic public playlist given **only positive examples**.
  - Proposed a clustering based method to **identify** new public playlists from user data, leading to an identification of more than **50 new playlists** previously not identified by the music experts.
- Identifying Feature Interaction Constraints to Improve Predictive Performance in Tree Based Models
  - Conceptualised an approach to use the **feature interactions** from the data, calculated using **mutual information**, as constraints in the existing XGBoost framework.
  - Interaction Constraints led to an average **improvement of 5%** in the performance for various regression problems.

### Business Analyst - Zynga Games, Bangalore, India

April - Sep' 2017

• Analysed key performance metrics for multiple mobile games to **provide insights** for business strategies in addition to developing an **in-house tool** to perform A/B tests on newly rolled updates.

#### Business Analyst - Accenture Management Consulting, Bangalore, India

June 2014 - Mar' 2017

- As part of a team, developed **fraud detection techniques** for a reliability management system for an automotive giant to **reduce post-sale expenses**. Proposed approach resulted in a projected **reduction** in warranty spend by **\$249** over the course of 4 years.
- Optimised stock levels at central warehouses across multiple locations for a European telecom giant. Proposed a **rebalancing solution** between locations to optimise the value stock that led to an **improvement of 9%** in the total stock value.

#### Data Analyst Intern - Media iQ Digital, Bangalore, India

*May - July' 2013* 

• Developed forecasting models to predict digital impressions won by an airline carrier for a given bid.

### **Education**

#### MSc in Artificial Intelligence, KU Leuven (graduated magna cum laude)

Sep'2017 - Sep'2018

*Master thesis:* Proposed and implemented a variant of the classic RankNet approach of ranking documents which personalises the results based on user profiles.

## MSc (Integrated) in Mathematics and Scientific Computing, IIT Kanpur, India

June '2009 - May '2014

Master thesis: Analysis of middle censored data under a shifted exponential distribution

### **Publications**

1. Feature Interactions in XGBoost. (pdf) **K. Goyal,** S. Dumancic, H Blockeel

K. Goyal, S. Dumancic, H Blockeel

AIMLAI-ECML 2019

2. SaDe: Learning Models that Provably Satisfy Domain Constraints. (pdf) **K. Goval,** S. Dumancic, H Blockeel

ECML 2022

- 3. Automatic Generation of Product Concepts from Positive Examples, with an Application to Music Streaming. (pdf) **K. Goyal,** W. Meert, H Blockeel, E. V. Wolputte, K. Vanderstraeten, W. Pijpops, K. Jaspers

  BNAIC 2022
- 4. DeepSaDe: Provably Satisfying Domain Constraints in Neural Networks. (under progress)

## **Skills**

General: Machine Learning · Constrained Optimisation · Satisfiability and Logic · Deep Learning · Data Mining

**Programming:** Python  $\cdot$  SQL  $\cdot$  R  $\cdot$  Java

**Libraries:** PyTorch · NumPy · Scikit-learn · Pandas · Altair · z3py · Scoop

**Languages:** English (Full Professional Proficiency) · Hindi (Native)

## **Leadership & Awards**

• Teaching assistant for three courses: taught exercise sessions and prepared assignments	2018 - 2022
• Thesis advisor to 5 students: projects in areas of personalised search, music streaming & game theory	2018 - 2022
• Department representative for the master thesis administration for MSc Computer Science at KU Leuven	2019 - 2022
<ul> <li>Research paper reviewer for ECML'19 and ECML'22</li> </ul>	
• Awarded 2nd prize at the KU Leuven Datathon	2017
• Participated in the DeepLearn Summer School, Gran Canaria	2022
• Awarded the prestigious <b>INSPIRE</b> scholarship by the government of India for undergraduate studies	2009-2014
