Experience

PhD Researcher @ DTAI lab, KU Leuven

Oct' 2018- present

Topic: Machine Learning for Verifiable Artificial Intelligence; Advisor: Prof. Hendrik Blockeel

• Learning Models that Provably Satisfy Domain Constraints

- Developed a new framework and an optimisation approach to learn models that can **certify domain constraints** (e.g., safety constraints, fairness constraints) for **all possible predictions**.
- Proposed a constraint propagation technique to propagate domain constraints through a neural network.
- Proposed multiple **novel evaluation metrics** to accurately measure constraint satisfaction of the learned models.

• Automatic Playlist Generation for a Music Streaming Service

- Developed an approach to **automatically identify** dynamic public playlist given **only positive examples**.
- Proposed a clustering based method to **identify** new public playlists from user data, leading to an identification of more than **50 new playlists** previously not identified by the music experts.

• Identifying Feature Interaction Constraints to Improve Predictive Performance in Tree Based Models

- Conceptualised an approach to use the **feature interactions** from the data, calculated using **mutual information**, as constraints in the existing XGBoost framework.
- Interaction Constraints led to an average **improvement of 5%** in the performance for various regression problems.

Business Analyst - Zynga Games, Bangalore, India

April - Sep' 2017

• Analysed key performance metrics for multiple mobile games to **provide insights** for business strategies in addition to developing an **in-house tool** to perform A/B tests on newly rolled updates.

Business Analyst - Accenture Management Consulting, Bangalore, India

June 2014 - Mar' 2017

- As part of a team, developed **fraud detection techniques** for a reliability management system for an automotive giant to **reduce post-sale expenses**. Proposed approach resulted in a projected **reduction** in warranty spend by **\$249** over the course of 4 years.
- Optimised stock levels at central warehouses across multiple locations for a European telecom giant. Proposed a **rebalancing solution** between locations to optimise the value stock that led to an **improvement of 9%** in the total stock value.

Data Analyst Intern - Media iQ Digital, Bangalore, India

May - July 2013

• Developed forecasting models to predict digital impressions won by an airline carrier for a given bid.

Education

MSc in Artificial Intelligence, KU Leuven (graduated magna cum laude)

Sep'2017 - Sep'2018

Master thesis: Proposed and implemented a variant of the classic RankNet approach of ranking documents which personalises the results based on user profiles.

MSc (Integrated) in Mathematics and Scientific Computing, IIT Kanpur, India

June 2009 - May 2014

Master thesis: Analysis of middle censored data under a shifted exponential distribution

Publications

1. Feature Interactions in XGBoost. (pdf) **K. Goyal,** S. Dumancic, H Blockeel

AIMLAI-ECML 2019

2. SaDe: Learning Models that Provably Satisfy Domain Constraints. (pdf) **K. Goval,** S. Dumancic, H Blockeel

ECML 2022

- 3. Automatic Generation of Product Concepts from Positive Examples, with an Application to Music Streaming. (pdf)
- K. Goyal, W. Meert, H Blockeel, E. V. Wolputte, K. Vanderstraeten, W. Pijpops, K. Jaspers

 BNAIC 2022

 DeepSaDe: Provably Satisfying Domain Constraints in Neural Networks

 (under progress)

4. DeepSaDe: Provably Satisfying Domain Constraints in Neural Networks. (under progress) **K. Goyal,** S. Dumancic, H Blockeel

Skills

General: Machine Learning · Constrained Optimisation · Satisfiability and Logic · Deep Learning · Data Mining

Programming: Python · SQL · R · Java

Libraries: PyTorch · NumPy · Scikit-learn · Pandas · XGBoost · Altair · z3py · Scoop

Languages: English (Full Professional Proficiency) · Hindi (Native)

Leadership & Awards

• Teaching assistant for three courses: taught exercise sessions and prepared assignments	2018 - 2022
• Thesis advisor to 5 students: projects in areas of personalised search, music streaming & game theory	2018 - 2022
• Department representative for the master thesis administration for MSc Computer Science at KU Leuven	2019 - 2022
 Research paper reviewer for ECML'19 and ECML'22 	
 Nominated for the best paper award at BNAIC'22 	
• Awarded 2nd prize at the KU Leuven Datathon	2017
• Participated in the DeepLearn Summer School, Gran Canaria	2022
• Awarded the prestigious INSPIRE scholarship by the government of India for undergraduate studies	2009-2014
